

devolo Home Control

Smoke Detector

More than just a smoke detector.

Whether you're home or away, you can rely on the **devolo Smoke Detector** to let you know if there is smoke build-up in your smart home. That's not all. It can also communicate simultaneously with additional Home Control components, turning on the light and opening the shades, for example.

devolo Home Control

Smoke Detector

Product features:

- Detects smoke emissions early, without fail, to keep you safe.
- The alarm consists of an acoustic and visual warning signal, as well as text message, e-mail or app notifications.
- Quick and flexibly positioned.
- Can work together with other Home Control components, for example to turn on the lights in the event of an alarm.
- Individually expandable at any time with other devolo Home Control components.
- Future-proof thanks to standardised Z-Wave® wireless technology.
- 3-year manufacturer's warranty.

Application example:

if

the Smoke Detector detects smoke

then

the alarm will reach you via text message/e-mail.

Smoke Detector UK
